

Circular Letter No. 397.

January 9, 1907.

Ro Superintendents.

Gentlemen:--

The annual Conference of Superintendents will be held this year in San Juan on January 17 and 18. A program is herewith enclosed. In the case of the principal papers the general plan followed last year, that of having one main paper and two shorter prepared discussions of it, will be followed this year. In addition to these there will be three shorter papers without prepared discussions on Preparatory Schools, and addresses by the Commissioner and Assistant Commissioner.

With respect to the item numbered three in the program for Thursday morning, January 17, it is desired that superintendents submit in writing all specific questions of school administration or Department policy upon which they desire information. These questions will be fully considered and answers prepared to those which are of more than purely local interest. All Superintendents are urged to make very full use of this opportunity to bring forward any question in which they may be interested. Questions should be submitted by Tuesday, the fifteenth.
